Availability and Prices Version 4.6

QS-DocumentAssembler is available in a Standard and a Professional Edition. The Professional Edition differs from the Standard Edition in that the Professional Edition supports the processing of documents as a Windows service as well as it supports any number of parallel processes for the concurrent processing of several jobs.

QS-DocumentAssembler is available for both editions in several versions for different types of barcodes.
The versions are available for the following barcode types:

- Linear Barcodes
- PDF 417 (2D)
- Data Matrix (2D)
- QR Code (2D)
- Aztec (2D)

As well as any combination of the above types of barcodes.

QS DocumentAssembler is delivered electronically as a download link (or on request on CD).

Maintenance contracts

Our software maintenance contract contains free updates to the latest software release
as well as free hotline support.

The monthly fee for this service is 1.5% of the software list prices of all components used.

The maintenance contract runs for one year following our receipt of your invoice payment.

Invoice payment is annually one year in advance.

Do you prefer to develop yourself?

Take a look at our "QS-Barcode SDK" software which is available as a developer library (C-LIB, DLL and OCX). If you're a developer, you'll want to integrate barcode reading ability into your own programs. Integrating the functions is easy and performed in no time.

Tests and Evaluation Version

Download a free evaluation copy of **QS-DocumentAssembler** or **QS-Barcode SDK**

from https://qualitysoft.de/download-2 for your tests.

Use our freeware program **bcTester** (https://bctester.de/en) to check whether your barcodes are readable with our software.
